EVERY NAME INDEX

The following Every Name Index compiled by Picton Press contains a total of 26,584 entries. Women are indexed whenever possible under both their maiden and married name(s). Maiden names are given in parentheses, thus Mary (Smith) Jones. When the maiden name is unknown, it is given thus: Mary (--) Jones. As always, readers are cautioned to check under all conceivable spellings. We have grouped most similar spellings together and in such cases have added a cross-reference to other spellings, as an aid to your search. The names Haight, Height, Hight, Hoight and Hoyt and spellings similar to each have all been indexed under those five separate spellings rather than merged all into one surname.
